Preface

The Mother Tongue Atlas of Metropolitan Toronto has been produced for the Ethnocultural Data Base of the Ontario Ministry of Citizenship and Culture as part of its Multicultural Program, in support of the Ministry's lead role in multiculturalism. The major purpose of the Ethnocultural Data Base is to provide the Ontario Government with information about the patterns of residential settlement and the socio-demographic characteristics of Ontario's ethnocultural groups. As well, the information provided in this publication is expected to be helpful to other levels of government, ethnic and multicultural organizations, community agencies, business and industry, post-secondary institutions, and the public generally.

This volume, based on 1981 census data, is the second in the Mother Tongue Atlas series, describing and portraying the distribution and characteristics of selected mother tongue groups in Metropolitan Toronto and its six member municipalities. It will serve as a companion piece to Volume I which provides a comparison between 1976 and 1971 census mother tongue data.

The Atlas manuscript was prepared by the Institute for Social Research, York University, with John Tibert as the principal co-ordinator, assisted by D. Bates, W. Bruce, D. Northrup, A. Oram and A. Pesek. Computer tables were produced by J.A. Logan of NAGOL Business Enterprises under the supervision of Jan DePoe, Senior Policy Advisor, Statistics, in the Sectoral and Regional Policy Branch, Ontario Ministry of Treasury and Economics. The data were obtained from Statistics Canada. General direction to the Atlas production was provided by Dorene E. Jacobs, Research Officer, and Maryelle Tetreault, Assistant Research Officer, Ethnocultural Data Base Office, Ontario Ministry of Citizenship and Culture. The original cover was designed by David Wyman.

Additional copies may be obtained from the Ontario Government Bookstore along with other Ethnocultural Data Base publications.

The Ontario Government Bookstore is located at 880 Bay Street, Toronto for personal shopping. Out-of-town customers can write to Publications Services, 5th Floor, 880 Bay Street, Toronto, Ontario M7A 1N8. In Metropolitan Toronto, call 965-6015. Outside Metro, dial 1-800-268-7540, toll free. I. INTRODUCTION

General

The Mother Tongue Atlas provides a detailed profile of Metropolitan Toronto and the five cities (Toronto, York, Etobicoke, North York and Scarborough) and Borough (East York) that comprise Metropolitan Toronto. The data in the Atlas details numerous demographic characteristics of the population according to Mother Tongue as indicated in the June, 1981 Census of Population and Housing.

The population characteristics studied include age, sex, marital status, family structure, number of children, mobility status, education, place of birth, labour force activity and occupation.

The Mother Tongue groups selected for the analysis are all those which comprised more than .5% of the total population of the Toronto Metropolitan Area in 1976. They are: English, French, Italian, Portuguese, German, Chinese, Greek, Ukrainian, Yugoslav, Polish, Indo-Pakistani, Spanish and Hungarian. These mother tongue groups comprised approximately 94% of the total population in 1981.

The Yugoslav and Indo-Pakistani groups are comprised of a number of languages. Yugoslav contains Croatian, Serbian, Slovenian and unspecified Yugoslav mother tongues. The Indo-Pakistani group is made up of Bengali, Cingalese, Hindi, Malayalam, Punjabi, Tamil, Telugu, Urdu and unspecified Indo-Pakistani languages. The distribution of each of the separate languages for the Yugoslav group is displayed on maps. Only the 3 largest language groups (Hindu, Punjabi and Urdu) are displayed for the Indo-Pakistani group. The tables, however, do not contain figures for the individual languages within either the Yugoslav or Indo-Pakistani groups.

The "All Other" category includes those persons having a mother tongue other than one of the 13 largest groups and persons who did not indicate their mother tongue in the census questionnaire.

The publication is divided into three sections:

1) a summary comparing the municipalities of Metropolitan Toronto, and maps displaying the population distribution of the selected mother tongue groups;

2) profiles of Toronto, York, East York, Etobicoke, North York, Scarborough and Metropolitan Toronto;

3) supplementary tables.

The supplementary tables provide an additional dimension for researchers. They depict the distribution of population by mother tongue group for each demographic variable and each of the municipalities of Metropolitan Toronto.

Sources and Explanation of Data

The Atlas is based on the 1981 Census of Population and Households, conducted by Statistics Canada. The maps included in the Atlas are based on 1981 census tract geographic boundaries.

References are made to 1971 and 1976 census data in order to emphasize changing trends in demographic composition. For a more complete examination of 1971 and 1976 Mother Tongue data, refer to: Mother Tongue Atlas of Metropolitan Toronto, Volume 1.

Census Tracts with small populations for a particular mother tongue group were excluded. As a result figures used in the Atlas may differ slightly from published Census totals.

Labour force and occupation data are derived from the Census weighted sample estimates whereas all other data are population counts.

Rounding & Error

All Census figures, including totals, are randomly rounded to a multiple of 5. Due to this procedure small cell counts may exhibit a significant distortion.

Calculated percentage distributions were rounded according to standard procedure and therefore may not add to 100%.

The census data presented is subject to error. The source of error includes: coverage error (persons or families missed completely or counted more than once); response error (misinterpretation of the census question, incorrect recording of the response, etc.); processing error (errors made in the transcription of responses to machine readable form); and sampling error (differences resulting from the distribution of data collected on a sample basis to the distribution of data within the total population).

Credits

All maps were produced by the City of Toronto Planning and Development Department using SAS/GRAPH (SAS Institute Inc., Cary, North Carolina). The tables were produced by the Ministry of Citizenship and Culture with COBOL programming assistance provided by the Ministry of Treasury and Economics. The census data was provided on magnetic tapes by Statistics Canada. The graphs, highlights and compilation of the final atlas were completed at the Institute for Social Research at York University.

II. DEFINITIONS

MOTHER TONGUE: the language first learned and still understood. Infants who have not yet learned to speak are considered to have as mother tongue the language most often spoken in the home.

OFFICIAL MOTHER TONGUE: English and French.

NON-OFFICIAL MOTHER TONGUE: any mother tongue other than English or French.

MUNICIPALITY: area with corporate status governed by Provincial and Territorial Acts.

CENSUS SUBDIVISION: general term applying to municipalities, Indian Reserves, unorganized territories and subdivisions.

METROPOLITAN TORONTO: a component of the larger Toronto Census Metropolitan Area, in census terms, a Census Division. It is comprised of six municipalities: the Cities of North York, Toronto, Etobicoke, Scarborough and York, and the Borough of East York, each of which is a Census Subdivision.

CENTRAL METROPOLITAN TORONTO: Toronto City, East York and York.

SUBURBAN METROPOLITAN TORONTO: Etobicoke, North York and Scarborough.

MARITAL STATUS - SINGLE: never married.

MOBILITY STATUS: is determined by the response to a question relating to the individual's dwelling or place of residence five years earlier. Based on this question, the population is classified into non-movers or movers.

NOTE: Canadian residents stationed outside in the Armed Forces or the diplomatic service are excluded from the population universe from which mobility data are collected. Those aged 0-4 on Census Day are also excluded from the mobility status universe as the 5-year reference period precludes this segment of the population.

NON-MOVERS: are persons who, on Census Day, were living in the same dwelling they occupied five years earlier.

MOVERS: are persons who, on Census Day, were living in a different dwelling that the one occupied five years earlier.

UNEMPLOYED: includes persons not classified as employed, who, in the week prior to enumeration,

(a) looked for work and were available to start work. As well, the Census Instruction Booklet asked persons who would have actively looked for work, but did not for certain specific reasons, to answer "yes" to the "looking" question. Those reasons were: temporary illness; indefinite layoff (exceeding 30 days) from a job to which they expected to be called back; or belief that no work was available in their community;
(b) were on temporary lay-off, not exceeding 30 days, from a job to which they expected to return (excluding full-time elementary and secondary school students); or
(c) had definite arrangements to start a new job at a future date (excluding full-time elementary and secondary school students).

UNEMPLOYMENT RATE: the percentage the unemployed labour force forms of the total labour force in the category, group or area.

NOT IN THE LABOUR FORCE: refers to persons who were inmates of institutions, or who did not work, or look for work, were not on temporary lay-off and did not have a job from which they were absent because of illness, etc., in the week prior to enumeration.

HIGHLIGHTS

SUMMARY

* In 1981, there were 2.1 million persons living in the six municipalities of Metropolitan Toronto: Toronto, North York, York, East York, Scarborough and Etobicoke. This is only a slight increase (0.6%) over the 1976 population.

* The largest mother tongue group was English, representing 68% of the total population and a 2% drop since 1976. The French group comprised 1.5% of the total population.

* The Italian mother tongue group remained about the same size as it was in 1976, but it is still the largest (8%) non-official language group in Metro Toronto. The next largest groups in 1981, in order of size were: Portuguese, Chinese, Greek, German, Polish, Indo-Pakistani, Spanish, Yugoslavian and Hungarian.

* A total of 127,410 persons, or 6% of the total population, had mother tongues of "other" origins, too numerous to list individually.

* The mother tongue groups with the largest increases in population between 1976 and 1981 were Indo-Pakistani (+72.1%) and Chinese (+70.7%). These same two groups have increased 290% and 190% respectively since 1971.

* The largest decrease since 1976 in the relative sizes of the various groups were the Yugoslavs (-18.1%). The largest decrease since 1971 was for the Italian mother tongue group (-15.1%).

COMPARISON OF THE SIX MUNICIPALITIES

* Since 1976, the populations of Toronto, York and East York have decreased; Etobicoke and North York have remained about the same size; and Scarborough's population has increased.

* The municipality showing the highest proportion of English or French mother tongue in 1981 was the City of Scarborough with 80%, a 7% drop from 1971. The City of York had the lowest proportion of English and French with 59%, a proportion which has remained virtually the same since 1971.

* In Toronto, the size of the Italian group has steadily decreased since 1971 when it was 11% of the total; in 1981 it was only 6%. The size of the Portuguese, now the largest non-official language group, has doubled between 1971 and 1981 to 8% of the total population.

* In York, while the size of the Italian mother tongue group has also declined since 1971, Italian still remains the largest non-official language group (19%). The Portuguese group has increased to 3% in 1981.

* In East York, the Greek mother tongue group increased to 6% of the total population; the Italian group remained about the same (4%) and the Chinese increased to over 3%.

* In Etobicoke, the proportion of persons with Italian mother tongue has increased to 8% in the ten year period 1971-81.

* In North York, 13% of the population were of Italian mother tongue, an increase of only 1% since 1971.

* In Scarborough, the Italian group is still the largest non-official language group at about 4%, virtually unchanged since 1971.

CENTRAL METRO VERSUS SUBURBAN METRO

* Approximately 64% of the population of Central Metropolitan Toronto (Toronto, York and East York) indicated either English or French as mother tongue in 1981. This proportion has not changed since 1971. In Suburban Metro (North York, Etobicoke and Scarborough) the proportion of the English and French mother tongue population has decreased steadily from 79% in 1971, to 76% in 1976 and to 72% in 1981.

* In 1981, the five largest non-official mother tongue groups for Suburban Metro in 1981 were Italian (8.5%), Chinese (7%), German (2%), Greek (2%) and Indo-Pakistani (1.5%).

LOCATION OF MOTHER TONGUE GROUPS WITHIN THE SIX MUNICIPALITIES

* In 1981, 28% of the population of Metropolitan Toronto lived in the City of Toronto, a 2% drop since 1976 and a 6% drop since 1971. North York's share of Metropolitan Toronto's population has remained unchanged since 1976 at 26%. Scarborough has increased 2% every 5 years since 1971 and now contains 21% of the total Metro Toronto population. Etobicoke's share has remained fairly constant over the last 10 years at about 14%. The smallest municipalities, York (6%) and East York (5%), have experienced a drop in population since 1976.

* Over 40% of the total Italian mother tongue group lived in North York in 1981. This proportion has been increasing steadily since 1971 when only 29% of the Italian group lived there.

* The Portuguese continued to be the most highly concentrated group with 78% of them living in the City of Toronto in 1981, down from 87% in 1971.

* The German mother tongue group was more dispersed across all municipalities, in proportions similar to the total population.

* In 1971, over 75% of the Chinese were concentrated in the City of Toronto; by 1981, this had decreased to less than 46%. The major increases for the Chinese mother tongue group were to 21% in North York, and to 20% in Scarborough. The municipality with the largest growth in Chinese was Scarborough. In 1971 only 5% of the Chinese population was resident in Scarborough. This increased to 13% by 1976 and 20% by 1981. During the same periods North York's share increased from 10% in 1971 to 20% by 1976 and to 21% by 1981.

* Thirty-one percent of the population with Greek mother tongue were living in Toronto in 1981, half of what it was in 1971. Another 23% lived in Scarborough in 1981; North York contained a further 20%.

* The Ukrainian mother tongue population was still largely concentrated in Toronto (40%) and Etobicoke (31%).

* Of the Yugoslav group, one third lived in Etobicoke in 1981, an increase from 19% ten years earlier. The proportion living in Toronto in 1981 has decreased from 46% in 1971 to 24% in 1981.

* Those with Polish mother tongue continued to be concentrated in Toronto (43%) and in Etobicoke (25%) and North York (18%).

* In 1981, the City of North York contained 33% of the Indo-Pakistani group, 38% of the Spanish and 37% of the Hungarian group.

LOCATION OF SELECTED MOTHER TONGUE GROUPS - CENTRAL METRO VERSUS SUBURBAN METRO

* Sixty-one percent of the total population of Metropolitan Toronto lived in Suburban Metro. This proportion has been increasing slowly since 1971 when only 54% lived in these areas.

* Of the English mother tongue group 36% lived in the Central Area of Metropolitan Toronto.

* For the English mother tongue groups, the most notable differences between the central area and the suburban area were: 85% of the Portuguese lived in the central area; 71% of the Indo-Pakistani lived in the suburban area; and over 60% of the Italian, German, Yugoslav, and other mother tongues lived in the suburban area.
